### **DETAILED ACTION**

1. Claims 1-19 are pending. Claims 2-18 are withdrawn from consideration as drawn to a non-elected invention.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 2 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 16, "a predicting unit which predicts a total number of articles" is not clear as to what the articles constitute.

Applicant's July 13, 2006 REMARKS have been reviewed, but are not convincing with regards to the above.

#### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1 and 19, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Savage, US 6,026,372.

Savage discloses, e.g. Figs. 1-4, cols. 1-5, an electronic cash register, e.g. 11, a total number of articles sold, e.g. 38, stocked articles, e.g. 50, a prediction unit, e.g. 44, and a display control, e.g. Fig. 4, and a total quantity of desired articles, e.g. 34, 36.

Savage does not explicitly disclose an average number of articles sold. Official Notice is taken that average number of articles sold of has been common knowledge in the food processing art. To have provided Savage the total quantity of desired articles to include an average number of articles sold would have been obvious to one of ordinary skill in the art. The motivation for having provided such would have been to incorporate common knowledge used within the inventory processing art. Applicant's July 13, 2006 REMARKS have been reviewed, but are moot in light of the new grounds of rejection.

### ***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
